

TUBES

Ceiling Tubes

The Fudakin™ External Drive LED T8 Tube is the perfect replacement for traditional fluorescent lighting. Ideal for retrofits as well as new construction, our External Drive delivers high quality LED lighting without the need of a ballast.

FEATURES

- Outstanding optical design providing efficient light source
- Extruded aluminum with anodized surface treatment helps to create a state-of-the-art heat sink
- Available in 15W(4')
- cETLus and DLC certified
- Available in ranges from 3000K-5000K CCT
- Contains no mercury
- Wide input voltage, AC120 - 277V / AC347
- Polycarbonate shatter-proof housing

BENEFITS

consumption compared to traditional lighting

- Easy installation
- Maintenance free
- High quality and reliability
- Even light distribution
- Long life
- Saves up to 70% energy

APPLICATIONS

- Widely used in commercial and industrial work environments, offices, manufacturing plants and food processing environments.

Product Parameters

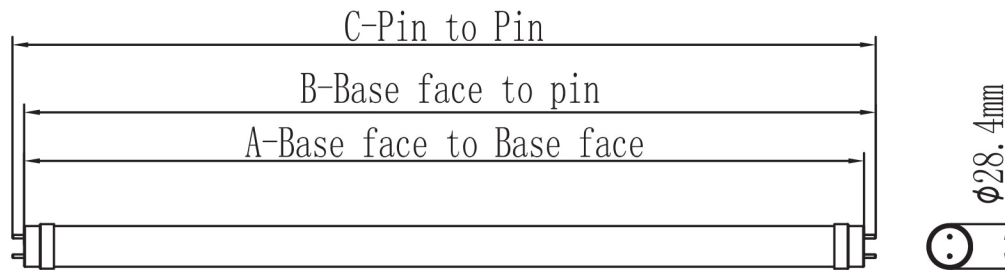

Model Number	Watts	Input Voltage	Lumen Flux	CCT	CRI	Beam Angle	Warranty	Working Temperature
FDK-LT8C-XX-4-15-XXX	15	AC120-277 or AC347	≥1800lm	3000K 4000K 5000K	≥80	120°	5 Years	-30 - 50°C

Product Order Code

FDK-LT8C-XX-4-15-XXX

Product Series	Style	Input Voltage of Driver	Size	Wattage	CCT	Type of Diffuser	Type of Power In
LT8 = Linear T8 Tube	C = Ceiling Tube	27 - AC100-277V 34 - AC347V	4 - 4FT	15 - 15 watt	3 - 3000K 4 - 4000K 5 - 5000K	C - Clear F - Frosted	D - Double Side
